

JINR Summer Student Program 2015

Joint Institute for Nuclear Research (JINR) is an international intergovernmental scientific research organization located in town Dubna, Moscow region, Russia, where fundamental research is successfully integrated with new technology work-out and educational programs. JINR comprises seven Laboratories, each being comparable with a large institute in the scale and scope of investigations conducted. The main fields of JINR's activity are theoretical and experimental studies in elementary particle physics, nuclear physics, and condensed matter physics.

Participants

Participants in the Program may be students finishing the third year of bachelor studies, master students or PhD students enrolled in the first year of graduate school, studying at universities and research organizations of the JINR Member States. Program participants will be selected on a competitive basis.

About the Program

The Summer Student Program at JINR will be organized in the form of student research projects done in scientific teams and will last 6 - 8 weeks for the period from June to September, 2015.
Application deadline is April 15, 2015

Financial support

Free accommodation will be provided in a hostel located not far from JINR. Travel expenses and daily allowance will be covered.
